

Bogong Moth nature craft

Search your local natural area and find materials on the ground to build our moth. you will need 4 wings, a body and something to tie it all together. You may need assistance from an adult to tie it together.

Step 1. Gather your materials. You could use leaves, grasses, sticks, flowers or any other natural material you find on the ground.

Step 2. Use your grass or natural binding material to attach each leaf onto the body of the moth.

Step 3. Take your moth on a fly through nature.
